

Dining in the Dark?

Do you dare to eat your entire meal in complete pitch darkness? At a point where a lot of people think they have seen everything, billboards and advertisements are plastering whole buildings, the pinnacle of nowadays visual communication society, it is that some abandon all this. Purposely abandoning vision to escape all this and may be to see what might be beyond. In several restaurants around the world the idea of dining in the dark has caught on. Originating in Europe this concept has spread all over the world. Opaque – dining in the dark is the only place in the United States where diners can plunge into the mysterious universe of darkness...
