The bus lines pay much attention to the details, like extra legroom, free wi-fi, power plugs, and the fact that you can reserve seats makes this bus liner a winner. The drawback of the Boltbus would be its hygiene; the line suffers from smells which can turn some people off. Other than that, this is a good service for its price.

## LUX BUS AMERICA

Sin City just got a whole lot serious. The Lux Bus is a coach travel to Vegas for about \$50. The line is a very spacious bus exclusively for those who want to sin it up before arriving in Vegas. It offers free drinks and free snacks while en route to Las Vegas and other destinations offered. The bus has comfortable leather seats which have the feel of class and exclusivity all the way from Los Angeles to the famous desert city. The bus line offers a door-to-door service to hotels which is a plus for most people who have reserved tickets.

## VAMOOSE

The Vamoose is a very pleasant bus which provides security and safety above all else. It gives a sense of exclusivity and superior performance. The Vamoose is a US travel bus line which has all the necessary luxuries provided; such as bathrooms, amazing wi-fi signals, and friendly drivers. The

Vamoose makes its way from the Metro to the DC area, where politicians and state leaders can purchase exclusive sections for added comfort, legroom and other purposes.

## **TRIPPER BUS**

Nothing is more like U.S. travel buses. The Tripper Bus line puts its customers first before anything else. Loyalty and passenger satisfaction is top priority. The Tripper Bus has features such as extra legroom, excellent wi-fi signals, good clean bathrooms, electrical sockets and on time departures. Despite all this, the best thing about the Tripper Bus is that it rewards its longtime passengers with free rides! Every 8 one-way tickets, you get one ride free and that's how to reward loyal customers!

## **REDCOACH**

Nothing smells of new class than Redcoach bus lines. This line runs through the hot and sexy Florida beach scene along with its reclining seats which can reach to 140 degrees with extra legroom. The Redcoach is the definition for affordable yet packed experience.

The best thing about these bus lines is the quality they provide for their price. Some may be expensive, but they are worth the cost. Others are cheaper, but they pack a whole lot of service and loyalty rewards. Customers will again and again keep coming back to the six best bus companies in America.
