

Hotel ibis Amman Forecasts Strong Growth in 2011

Jordan's first internationally branded economy hotel adds a new hip and funky lounge called L'OASIS Lounge

ibis Amman, the first internationally branded economy hotel in Jordan, is confident of a stellar 2011. Buoyed by higher than projected occupancy figures since it opened its doors in November 2009 the hotel predicts a stronger and upbeat outlook for the year, in light of Jordan's growing tourism initiatives.

Christophe Landais, Managing Director of Accor ME said: "In perfect synergy with the ambitious tourism targets of Jordan, Accor's worldwide economy hotel brand ibis continues to grow. Pioneering a new benchmark of high quality hotel services in Amman's thriving hospitality industry, more and more guests now prefer to stay at ibis Amman enjoying our hotel's impeccable service at the best value for money prices."

ibis Amman is located at the heart of a business and leisure district, only 30 minutes away from Queen Alia International Airport and is close to shopping centers, restaurants and corporate offices. It features 158 perfectly equipped en-suite rooms with large double-beds, high speed wireless internet connection (WIFI), LCD flat-screen TVs and direct-dial phones. To beef up its facilities, the hotel has added a brand new lounge.

Olivier Hick, VP Operations, Accor ME added: "We have recently opened our new hip and funky lounge called L'OASIS Lounge at ibis Amman which will complement our dining options. The lounge has a capacity to offer 60 seats indoors and features a sunny terrace which can comfortably accommodate 78 seats. Guests can unwind with live music, watch their favourite shows in large flat screen TVs or chill out with a variety of cocktail drinks in a warm and friendly atmosphere. The new lounge is also ideal for private parties and evening gatherings."

L'OASIS Lounge joins ibis Amman's existing F&B facilities which include the Open Pasta & Grill restaurant on the Mezzanine floor of the hotel, which provides guests freshly-made pasta dishes with authentic Italian flavours, and the 24-hour Coffee Lounge which serve early and late riser breakfast and light snacks, 3 flexible meeting rooms for your seminars, trainings and team buildings.
