

ROME: FINE OPPORTUNITIES FOR THE AIRPORT TAXI TRANSFERS

How to reach city center from airports? What are the different existing transfers? The airports, Rome – are kilometers from the city center. Before you can use the subway and other public transportation in the city, you must first reach the city center using a shuttle bus, train or taxi. In this article, we present you the various shuttles and trains that

run between the city center of and the airports.

The largest airport is about 30 kilometers from Rome's city center. The airport is also served by the so-called traditional airlines and low-cost airlines. Different possibilities are available to you to reach the city center:

Fast transfer with the Leonardo Express

The fastest transfer between [Rome – Fiumicino Airport](#) and the city center is the Leonardo Express train. The journey takes exactly 32 minutes. If the transfer is fast, it also has a certain price: 14 € per person. You will find a detailed description of the Leonardo Express in my homonymous article.

The good transfer plan: The shuttles

The Leonardo Express costs 14 € per person, which is not given. The economic alternative is the Terravision buses that run between the airport and the city center. The shuttle will only cost you 4 € per person.

Rome-Fiumicino transfer by taxi

No more scams of taxi drivers! The price for the Rome-Fiumicino<> city center route is a fixed price (fixed price therefore) decided by the city. It is 48 € and includes the transport of 4 passengers and luggage. The [taxi-airports-transfer.com](#) is the best deal there.

If your hotel or accommodation is not located in the city center of Rome, you can still enjoy a fixed price, which will depend on your destination (CastellodellaMagliana – Parco de Medici € 30, NuovaFiera di Roma 25 €, Ciampino Airport 50 €, Tiburtina Station 55 €, Ostiense 45 €, Civitavecchia 120 €).

Warning: These packages are only valid for taxis in the city of ("Commune di Roma"). Taxis in the city of are white and have a taxi sign on the roof of the car. The license number and the inscription "Roma Capitale" must be visible on the passenger door and the rear of the vehicle. The journey time depends

on the traffic and varies between 45 minutes and 1 hour.

Do not take taxis from the city of Fiumicino. Although the price for the trip is also fixed and regulated, it will cost you € 60 here. I also strongly advise against using "pirate taxis". When you arrive at the airport, you will surely be approached by people offering trips to the city center. Even if you negotiate a fixed price with the driver, you have no guarantee that it will stick to it! Moreover, it is impossible to file a claim with the taxi services of the city in case of problems.
