

GALAPAGOS ISLANDS CRUISE: A GUIDE FOR AN UNFORGETTABLE EXPERIENCE

The famous Galapagos Islands are the most pristine and stunning places on earth. The unique and worth-visiting wildlife gives a luxurious cruising experience that can be treasured forever. The animals that live on the islands are no threat to human life. The close encounter with animals is exceptional as you won't find them anywhere else.

Undoubtedly, the Galapagos Islands are a dream destination for many individuals. The islands guarantee magical, memorable, and fun-filled experiences.

If you desire to capture the true essence of nature's beauty, then you should start your amazing journey now. Cruising between the Southern and Central Islands, you'll have an experience like never before.

Cruising The Astounding Galapagos Islands

The Galapagos Islands are said to be an archipelago of volcanic islands situated about 1,000 kilometers in the Pacific Ocean from the Ecuador coast. As mentioned earlier, the majestic islands are home to a variety of wildlife. With your family or friends, you can get on board with your own [Galapagos charter](#). Because of the uniqueness of these islands, they are classified as a World Heritage Site by UNESCO.

There are mainly two types of Galapagos tours: by plane and by boat. Getting on a Galapagos cruise is highly luxurious. This is because the cruise maintains large cabins and excellent services and also takes you to remote places on the islands.

On the other hand, plane tours offer shorter traveling times between the islands. The fact is, no matter which tour you pick, you will certainly have a spectacular experience.

The Best Time to Go on a Galapagos Cruise

The ideal time to go on a cruise is between December and May. You must be wondering why in the dry season? This is because you will enjoy sunny weather and the charm of the calm seas. The thing that must be kept in mind is that since the Galapagos Islands are located near the Equator, the climate is usually warm around the year. You have to make sure that you pack summery clothes. Most importantly, don't forget to bring your sunscreen.

On another note, if you want an escape from the crowds, the most suitable time to take the cruise is between April and June. Tourism in these months is comparatively lower than usual.

Top Mind-Blowing Activities in Galapagos

You will find various exciting [activities on islands](#) that you will fully enjoy. Here are a few things you can do while cruising the Galapagos Islands:
