

TOP 5 ADULTS-ONLY RESORTS IN THE MALDIVES FOR A PEACEFUL AND LUXURIOUS GETAWAY

The Maldives is one of the most beautiful destinations in the world. While most people see it as a destination only for couples, the reality is really different. Indeed, lots of places would accommodate families with small children. If you want to enjoy your holidays in the Maldives without any children running around, here are the 5 best adults-only luxury resorts in the Maldives according to **The**

Resorts Collection experts.

1/ Kudadoo

Kudadoo is often referred to as the best luxury resort in the Maldives, and, good news, it is adults only (or, at least, it won't accept children below 16yo).

Therefore, you'll be able to fully appreciate the exclusivity of this place which counts only 15 overwater villas. Its all-inclusive package is also one of its key selling points. The concept? AAA. Anything, Anytime, Anywhere.

At Kudadoo, not only you won't have any children around, but you will be able to get anything, at any time, anywhere. For instance, you could get a massage in your villa at 10pm, no problem. This would be included in the price. You could also get a private dinner on the beach set up just for you and your partner.

If you want THE best adults-only resort in the Maldives, Kudadoo is the one.

2/ Milaidhoo

Another excellent resort in the Maldives which won't accept small children is Milaidhoo.

This small luxury resort (only 65 villas) located in Baa Atoll stands out with its excellent service, delicious food, and super atmosphere to deliver the best Maldives has to offer.

It is a perfect place for a honeymoon as well, as you can be sure you won't be disturbed by any kid running around.

At Milaidhoo, it is highly recommended to take the beach villas, as they are way more spacious than the overwater bungalows. Also, the distance between each beach villa is much larger than the one between the overwater villas, offering more privacy and a better feeling of exclusivity.

3/ Hurawalhi

We presented earlier Kudadoo, the sister property of Hurawalhi. This luxury 5* resort is located just 2km away from Kudadoo and offers a more affordable luxury (Kudadoo is among the most expensive in the Maldives).

Hurawalhi is an adults-only resort and one of the most recommended in the Maldives. With just 90 villas, it remains small and exclusive (even though a bit bigger than Milaidhoo). Adults can enjoy their premium all-inclusive package with unlimited drinks.

If you are after good snorkeling options and beautiful villas, Hurawalhi is an excellent option which offers a solid quality/price ratio and, cherry on the cake, you get access to 5.8, the underwater restaurant, for a very special treat.

4/ Anantara Veli

Among the best adults-only resorts in the Maldives, we have to also list Anantara Veli.

This 5-star resort, located a short 30-min boat ride away from Male is perfect for couples who do not want to be disturbed by children during their dream holidays in the Maldives.

Even though the villas are not the largest and most impressive compared to other resorts that we presented above, it is still an amazing property overall. The service at Anantara Veli is excellent, and the beauty of the lagoon is almost unmatched in the Maldives.

It will be perfect for a short stay, maybe split with another resort further away from Male in order to optimize transfers and be close to the airport on your departure day.

5/ Komandoo

Finally, Komandoo closes this top 5 of the best adults-only resorts in the Maldives.

Known for its super competitive all-inclusive package and great vibrant atmosphere, Komandoo is perfect for couples who want to experience an active island where they will be able to socialize with other guests over a few drinks by the bar.

Komandoo also offers an exceptional diving experience, with easy access to nearby coral reefs and a rich marine ecosystem, ensuring a memorable getaway in a dreamt tropical setting.

This resort, even though a 5*, will be in a lower price range than the others, while still delivering an excellent experience with a great quality/price ratio.
